

Dear Lincoln Residents:

The Lincoln Senior Center sub-committee has met with the architect Robinson Design, Inc. to begin the process of building a new senior center. The location is near the new middle school on Jencks Hill Rd. As a first step they have created a survey document for the committee members to give them an idea of what we would want in our senior center.

We want to share this survey with you and invite you to participate in the survey. The survey was created in Microsoft Word so you can download it to your computer then fill in your comments to any question(s), delete blank lines then save it and e-mail it as an attachment to [ronmck11@yahoo.com](mailto:ronmck11@yahoo.com) before March 5, 2009.

Once we have our plans we will hold a public meeting to show and explain the building along with the completion date.

**Lincoln Senior Center  
Committee Design Survey – 02/20/09**

*Architects initial design statement:* The purpose of this questionnaire is to obtain input from committee members so that we are aware of the important goals for the senior center. In general, we want the Lincoln Senior Center to be ideal, as good as it can be given the physical and budgetary conditions. We would like spaces to feel alive and inviting and a pleasing place for people to enjoy. Our goal is to have a variety spaces for different activities in order to be an appealing destination for a variety of people.

- 1) What words would you use to best describe your goals for the Lincoln Senior Center project?

---

---

---

---

---

- 2) If the Lincoln Senior Center were to be successful, what feelings would the interior and exterior environment of the building convey? (i.e.: fun, welcoming, meeting place, sense of belonging, supportive, informative).

---

---

---

---

---

---

---

---

---

---

**Lincoln Senior Center  
Committee Design Survey Continued – 02/20/09**

- 3) We recognize there will be a variety of spaces that will be present. What are some of the interior environments of the building that you would see as ideal? A place one would look forward to go to and the reasons why so that we can translate these words into spaces (i.e.: spending part of a rainy day next to the fireplace, looking forward to a competitive game at the card table or pool table, watching a musical group, lunch with friends).

---

---

---

---

---

---

---

---

- 4) Please explain below the items or building features that you liked most and hope to see incorporated into the Lincoln Senior Center project as found at the following:

*a) The South Kingstown Senior Center:*

---

---

---

---

---

---

---

---

*b) Other Senior Centers: (indicate the senior center by name)*

---

---

---

---

- 5) Please note items or building features that you did not like about the South Kingstown Senior Center and why. (note: the sub-committee visited the South Kingstown Senior Center)
