

Motor Vehicle Tax Bills

The Town has been delaying sending out Motor Vehicle Tax bills until the State Budget is finally passed by the General Assembly. Unfortunately, it now appears a final vote on the State budget may not take place before September.

The conflict is primarily based on the details of the Motor Vehicle Phase-Out legislation, so it does impact our motor vehicle billing process. The Town does not want to create any further confusion but can no longer wait for the General Assembly to settle the question.

We will be preparing and sending out Motor Vehicle Tax bills during the first week of August. The bill will be based on the existing law (the same as last year). The first quarterly payment due date for the Motor Vehicle Tax will be delayed until August 31st.

When the conflict at the State House is resolved, any adjustment to the Motor Vehicle Tax bill will be calculated and applied to your unpaid balance as a credit or, if necessary, a refund will be processed.
