

## **XV. Plan's Compliance with State Guide Plans and Other Relevant Documents**

The Town of Lincoln's 2003 comprehensive planning efforts have taken place in the context of the following requirements:

1. The passage of the State of Rhode Island's Comprehensive Planning and Land Use Regulation Act as amended,
2. The state guide plan elements as updated, and
3. The subsequently promulgated standards and criteria for state approval of the local comprehensive plans.

The citizens, Town officials, and the consultant (Edwards and Kelcey) who worked on the 2003 Comprehensive Plan update reviewed all state guide plan elements, standards and criteria as they apply to proposed amendments to the plan and believe that the 2003 Comprehensive Plan update meets those plans, standards, and criteria.
